## New Interpreting Training

Newsletter No. 128 issued by Noriko Rogers (June 4, 2023)

I hope this finds you doing well!

Back in 2019, I took an interpreting course from Simul and enjoyed the overall experience (if you are interested, [here](#) is the newsletter that I published when I first signed up for the course!).

This course was consecutive-heavy, however, and I have come to crave training with more emphasis on quick response and the simultaneous mode. Equally importantly, I wanted to learn more

sustainable self-study methods.

Fast forward 4 years, I finally signed up for the advance conference interpreting course offered by [EJ Expert](#). I opted for the on-demand course (at least for the first time), and despite not engaging with the class real time, I am very excited about the progress that I am already making.

There is already quite a bit of focus on big numbers and quick response and there will be more simultaneous exercises as the course progresses.

I will keep you posted on my thoughts on the course as I experience more!

Thanks for reading!
